In general adaptation and curative power in diseases of women, in dyspensia in its protean forms, in chronic intermittent fevers, and in all diseases generated by malarial poisons, they are without a rival among the medicinal waters of America. The proprietor is aware that this is a very strong claim. The public will judge if it be sustained by the testimonials submitted.

Since the last Spring season several valuable springs have been discovered at this place. One of them, according to an analysis made by Professor Toury, of Bartimore, is decidedly impregnated with the "Saits of Lithia," which has given such celebrity to the Gettysburg spring in our own country
